Source Controls	TFS, GitLab, GitHub
IDE	Visual Studio 2017, 2019 & 2022

IT EXPERIENCE

Organization	Position Held	Duration
KPMG	Software Engineer	November 19 2021 to December 23 2022
World Fashion Exchange	SDE(Engineer-Development)	December 24 2022 to till date
Mevatron solutions	Intern	Jan 2021 to July 2021

ROLES & RESPONSIBILITIES

✔ Analysing and understanding the inputs from the client.
✔ Developing utility classes to reduce the rework and increase the Quality of work.
✔ Deployed Application into Servers.

PROJECTS HANDLED

PROJECT #1

PROJECT : Economic Growth Digital Suite(EGDS)
Role: Development
Technologies : Asp.Net MVC, C#, HTML , Bootstrap CSS, JavaScript & Jquery, SQL Server,
Organization: KPMG

Description:

This application is entirely developing under Government sector requirements, This application provides the complete Economic growth of a particular state or a Govt., Body.

Key Responsibilities:

✔ Involved in each phase of the project, taking requirements from client, designing the application by developing mock up screens, developing the application in parallel with testing and deploying it to production.

PROJECT #2

PROJECT : IGH On The Map
Role: Design & Development
Technologies : Asp.Net MVC,C#, SQL Server, JQuery, Java script, HTML , CSS , Bootstrap
Organization: KPMG

Description:

This is an intranet project. The project aim is to display all the projects of IGH service lines on the map state wise count.

PROJECT #3

PROJECT : PPC (Production Planning and Control)
Role: Design & Development
Technologies : Asp.Net Core, C#, SQL Server,Angular, Java script, HTML , CSS , Figma.
Organization: World fashion exchange

Description:

        This application is a module of ERP Product and This is a Own product of Wfx. This application is designed to Plan and control the production process of an manufacturing unit. This application is mainly designed for fashion (garment-manufacturing) industries to keep a good track about their Production Planning and Control.

Key Responsibilities:

✔ Involved in each phase of the project, taking requirements from client, designing the application by developing mock up screens, developing the application in parallel with testing and deploying it to production.
